

Note: It has been noticed that some members with email addresses ending with: (.hotmail.com, .msn.com, yahoo.com etc.) may not always be reliably receiving their Booking Confirmations. This has to do with blocking on behalf of those particular email servers. If you have not already done so, we strongly advise that you take the time to setup a dedicated Gmail email address for conducting ICCC Bookings. i.e. <https://accounts.google.com/SignUp>.
